OEM PARTS Price List  
Effective 4.01.10

2010

## Parts Order Guidelines

- All ground orders are subject to a \$24.00 handling fee and next day air orders are subject to a \$35.00 handling fee.
- All orders must be clear and legible with one purchase order number and one ship to customer
- Shipping carrier and service required must be clearly identified
- All fry tank orders must contain a model and serial number for each tank ordered. Emergency situations should be arranged by phone or email to insure shipment
- Orders for same day shipment must be received BEFORE 3:00 PM Eastern Standard Time and clearly identified for same day shipment. Shipments of HOT/EMERGENCY replacement parts orders take priority. Supplies and accessories are not guaranteed for same day shipment. Purchase orders received after 3:00 PM Eastern Standard Time should be confirmed by phone or email by the purchaser to insure shipment.
- Faxed/Emailed confirmations of purchase orders will be sent within 24 hrs of order receipt.

## OEM Magikitch'n Parts Warranty

Replacement parts are warranted for **90 days** from the date of purchase with the following exceptions:

- Replacement tanks (beyond original warranty) are warranted for one year from the date of purchase

\*See the Warranty Procedures book for further information\*

## Magikitch'n: Core vs 600 Series

In May of 2001 MagiKitch'n moved from Quakertown, PA to Bow, NH. During this transition the model number of the charbroiler's changed. Broilers manufactured in Quakertown had model numbers of 24,30,36,48,60, and 72. We also refer to these units from Quakertown as "Core" units. When the MagiKitch'n line moved to Bow the "600 Series" was introduced therefore changing the model numbers to 624, 630, 636, 648, 660, and 672. The serial number format changed as well. Quakertown units had an eight-**digit** serial number. The serial numbers in Bow have an eleven-**character** serial number. The first being the letter "G" which stands for gas then two digits consisting of the year of manufacturing then two more letters consisting of the month and week of manufacturing following by six digits that individualize that particular unit.
